

Village to Village Network Risk Assessment Exercise

Directions: Consider the risks to your community and think about the community-wide vulnerabilities and what the impacts of that would be on your community stakeholders (members, service providers, etc).

HVA provides an informed basis for reducing risk, through interventions that reduce vulnerabilities.

Risk / Threats- Effects	Vulnerabilities Infrastructure, Individual, Org	Impact Human Health, CoOP, Societal
Weather		
Hurricane-- Wind, rain, storm surges	Aging infrastructure, low lying homes, overhead power lines, large trees, above average rainfall (saturated ground), fragile medical condition, inadequate comms	Transportation failure, damage to homes, flooding, power outage, food safety, no access to dialysis, meds, evacuation vectors, death, disease, transports to ER,
Cyber Attack		
Climate Change
